U.S. BANKRUPTCY COURT
E.D. MICHIGAN DETROIT

The reason why I am interested in the Bankruptcy of the City of Detroit can be found by having grown up here, and employed by the City. These current events associated with the bankruptcy are not separate from Detroit's history. In my view, this bankruptcy and more importantly how factors that may have been engineered to bring Detroit to bankruptcy are not as vital as the integrity of the justice system.

Not too long ago, Black Americans were pushed out of their homes in Hamtramck, offered pennies on the dollar for their homes despite Federal laws and received little or no relocation assistance. It appeared that local, state and federal government turned a blind eye in their duty to do what was right. It took a courageous and insightful judicial figure to set things proper and uphold the Civil Rights of those Michigan residents.

Now comes the current legislature. First, a group argued against the format of a petition to bring the Emergency Manager (EM) Law to a vote. This despite their argument lacked credibility. The EM law was voted to be repealed. Next, the legislature worked behind closed doors, in the dark to pass another EM law, which, mirrors the repealed law attaching a measure protecting it against repeal.

Although these events are not exactly, they share a remarkable similarity. It appears that a large group of Black Americans' Civil Rights and probably other legal rights are being violated. A power group, in this case the Michigan legislature is trying to have it all their way. It also gave Detroit an unelected official the EM.

The EM had no vested interest in the City or its residents. There was no positive track record of effectiveness in the use of an EM. In fact, what seems to be common is that he or she seems to run up the bill and an excessive element of cronyism. His lack of concern was evidenced by his remarks; calling workers lazy, rich and complacent. It sounded like an insult aimed at all union workers including war veterans employed by the auto plants. Then, there is his lackluster legal attack on the illegal financing deal which appeared to propel Detroit landing into bankruptcy. I found that most troubling.

Lastly, it may take a courageous judicial figure to set things right. There is a lot at stake and history will holds all the facts to be judged but it is the American justice system that is at stake.
